# Stoneridge sets the standard

**Stoneridge Electronics™** is a leading provider of Tachographs and Fleet Solutions to the European Aftermarket sector. Three decades of design and manufacturing, coupled with our insight and experience allows us to ensure customers receive exactly what they want: highly reliable and robust products, backed up by a professional after-sales service.

## The industry standard

The MKII is fast becoming the industry standard and it's easy to see why. It offers you **unrivalled reliability** with accurate programming and calibration for all makes of Electronic Tachographs to ensure the smoothest workflow within your workshop. And, as the MKII is a hand-held unit, it facilitates in-cab calibration and testing, giving you a faster turnaround.

## The MKII Tachograph Programmer

The MKII couldn't be easier to use with its simple scroll keys and clear LCD screen displaying various menu options. Available in a range of languages with a full set of connecting leads, battery charger, carry case and full instruction manual, the MKII's versatility and functionality make it the number one choice in calibrators.

Squarely focussed on workshop use, here are just a few of the MKII's key functions:

- Determining a vehicle's W-factor (using Rolling Road or fixed distance method)
- Performing tachograph bench tests
- Altering tachograph K-Factor settings
- Calculating the DIL switch settings for any valid K-Factor
- Conducting speed limiter tests

## The MK II Attributes

- Robust design suitable for workshop environment
- Easy-to-read display
- Programmes and calibrates all makes of Electronic Tachographs
- Simple software upgrades for Digital Tachographs
